# ANTIBACTERIAL PAINT WITH SILVER IONS

Due to the growing interest in having increasingly healthy environments, **Industrias Kolmer**, constantly taking part in innovative activities and always focused on taking care of people's health, has developed a high quality paint: sanitizer, with antibacterial and antimicrobial properties (99.99 % effectiveness), anti-mould and with very low VOC

**WITH SILVER IONS**

**15 y 4 Liters**

**WATER**

**MATTE WHITE**

For more information, see the **technical sheet** on our website [www.kolmersa.com](http://www.kolmersa.com)

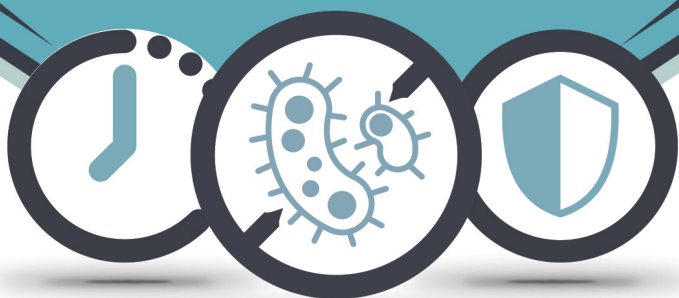

# TAKING CARE OF YOUR HEALTH IS IN YOUR HANDS!

Take care of your own health and of the health of your loved ones by eliminating 99.99 % of microorganisms.

Prevent any kind of bacteria from growing in the paint layer.

It maintains its properties over the entire life span of the product.

## MAIN PROPERTIES

**HEALTH PAINT AG+** by **Kolmer** is an acrylic copolymer-based paint, **certified in accordance with JIS Z 2801**. It is manufactured with silver ions which provide the dry paint layer with an inhibiting and preventive **effect against the growth of bacteria such as E.coli, Legionella, Pseudomonas, Salmonella, L. monocytogenes, S. aureus and Aspergillus Niger indefinitely.**

This is a high-end quality paint, with a smooth matte finish, anti-mould, applicable both indoors and outdoors, extreme whiteness, non-yellowing, great coverage and highly resistant to washing, as well as breathable, waterproof and with low VOCs emissions.
